The Solutions

- **A voicemail summary app.**
  - Shorten the voicemail to a concise text summary that you can read quickly.
  - Know at a glance if a voicemail is important
  - Improve voicemails that people widely use, but always forget about.
  - Porting the voicemail service to a even more widely used format, text.
  - Stop wasting time listening to voicemail to get meaning out.
  - Make AI work for a user by summarizing a task for the user..
